

Recommendations of the Committee :

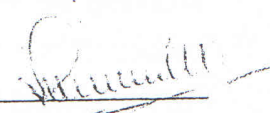

As a result of its visit to the Sri Sri University, Cuttack and its meetings, discussions and interactions with the Vice Chancellor and all the stakeholders, as well as visits to its infrastructure and facilities, the Committee now makes the following recommendations :

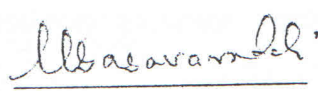

1. The University's progress and development, as well as its teaching and extension activities appear to be satisfactory. The UGC may encourage this institution for enhancing its activities in the future.
2. The committee unanimously recommends that the UGC may approve the Sri Sir University proposal to be empowered to award degrees.
3. Although there are a few shortcomings as pointed out in the report, the Committee considers many of them as of a marginal nature and not likely to affect the progress of the University. However, the UGC may like to advise the University to take immediate steps to rectify the deficiencies pointed out.
