About the Sri Sri University

Sri Sri University (SSU), Cuttack, Odisha, India founded on the ideals of imparting quality and holistic education envisions to be the global powerhouse of producing skilled graduates who would stand to offer out-of-the-box solutions, and above all be humane. Envisioned by Sri Sri Ravi Shankar Ji, SSU was established in 2009 as a centre for world-class education in India and commenced during the year 2012. The campus is sprawling on 188acreland situated between Bhubaneswar and Cuttack and is located on bank of the tributary of River Mahanadi. The University is emerging as a center for premium education in India, aimed at blending the “Best of East & West”. The University offers a unique education that brings together the best of Western innovation with the ancient values and wisdom of the East. In its holistic mission, the University has formulated its curricula integrating different philosophies and modern technicalities and learning aids.

Our Vision

To impart holistic and value-integrated education in order to develop visionary thinkers with social-consciousness to lead and precipitate inevitable changes, with summative call for Learn - Lead - Serve

Our Mission

To create centers of excellence in knowledge and research across the fields of study in order to equip students to achieve the highest level of professional ability in a learning atmosphere that fosters human values to serve the needs of local, national and global economies.

The University offers a range of pivotal as well as unique courses that seek to preserve the ancient wisdom of the East through programs in yoga and naturopathy, classical performing arts and offer the best of Western innovation through cutting-edge programs in Agriculture, Osteopathy, Engineering and Craniosacral therapy, good governance and management. Sri Sri University takes pride in offering a curriculum that enriches both domain expertise and life skills. The University provides a unique social culture which nurtures a rich learning environment. In the next five years, the campus is poised to become a multi-disciplinary educational hub hosting over 7500 students.

Currently, the University is offering 49 courses through its 08 Faculties i.e. Faculty of Architecture; Faculty of Sciences; Faculty of Management Studies; Faculty of Health and Wellness; Faculty of Arts; Communications and Indic Studies; Faculty of Contemplative and Behavioral Sciences; Faculty of Emerging Technology and Faculty of Agriculture.

About the Faculty of Agriculture

Agriculture education program administered at the University aims at filling the gap by creating skilled professionals who become progressive and practicing farmers create agri- based start-up companies to generate technologies and/or provider services to agriculture sector or serve the government at various capacities to promote agriculture.

About the Programme

Now-a- days everyone is focusing on agriculture for their career. Agriculture career provide job for life, well structured salary and chance to create your image in the society. There are diverse opportunities available for agricultural graduates. Agricultural graduates are not only getting the job in agriculture but also they can apply in different sectors to grab the opportunities. With the population rising at faster rates than ever before, agriculture careers are becoming increasingly more important. This webinar will helpful for the students to know the best opportunities in agriculture after their graduation.

From this Webinar, UG/PG students in agriculture and allied subjects will be helped to know about their career in agriculture, the right path in choosing their career in agriculture and also know the various opportunities in agriculture.

Important

The webinar would be beneficial to choose the best career and opportunities in agriculture.
