SRI SRI UNIVERSITY

## From the Editor's Desk

Dear Readers

Decades ago, technology transformed the world into a global village. A few months ago, when the world came together in its fight against the COVID-19 pandemic, technology once again played a crucial role by uniting us in difficult times, leading us towards our common goal. Within no time, SSU metamorphosed into SSU Online and swiftly responded to the challenges ahead. Despite the crisis continuing unabated, the academic session was brought to a successful closure. The University conducted the semester examinations online and published results in record time.

Soon after, the SSU family once again came forward and hosted a number of Facebook Live Sessions which recorded a huge viewership across the world. This was followed a series of Online MDPs and FDPs in areas such as Happiness and Fulfillment, Mind Management, Effective Online Teaching, Creative Thinking, Advanced Academic Writing, Secrets of Public Speaking, Personality Development, Dance, Artificial Intelligence, Machine Learning, Rasa and Bhava in Indian Dance Tradition, Research Design and Data Analysis using SPSS/R, Basic Sanskrit, and many more. It goes without saying that these initiatives by the University contributed immensely to capacity building and skill development on a large scale.

This issue of SSU Insight captures the spirit of SSU Online. I hope our readers will find this issue no less engaging as it brings forth SSU in a truly new *avatar*.

Happy Reading!
