SSU

From the Editor's Desk

Dear Readers

As countries around the world continued their fight against COVID-19, India renewed its resolve to come up with a vaccine that would help safeguard human lives against this deadly virus which had been rapidly mutating itself. Efforts to bring the economy back on its track were also underway. With some signs of relief, it was still a moment of guarded celebrations during the festive season.

At SSU, along with the classes which continued on the online mode during the semester, there were webinars, Facebook live sessions and a host of other events. This issue of SSU Insight brings to the fore, all those events which add to the distinction of SSU's unique identity as an educational universe.

I hope our dear readers will find this issue of the newsletter delightfully engaging!

Happy Reading!

Guest Lecture on ECBC-R Eco Niwas Samhita 2018 Code

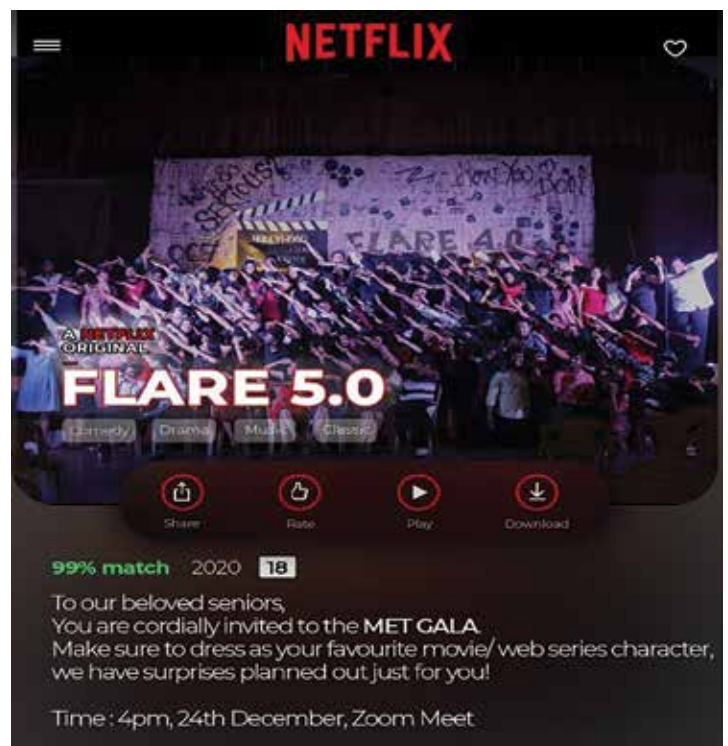

14th Oct. 2020

The guest lecture by Ar. Saswati Chetia from Indo-Swiss BEEP Project was focussed on the implementation of Design Methods and Calculations required for increasing the energy-efficiency of buildings envelope design as prescribed by the Energy Conservation Building Code of India - Residential 2018 (ECBC-R or Eco-Niwas Samhita) by Bureau of Energy Efficiency (BEE), Government of India. This lecture is part of a B.Arch. Subject called ARC-15-211 Climate in Architecture which is facilitated by Ar. Vaibhav Jain from

Faculty of Architecture. Due to the versatility and direct relation of the topic with United Nations Sustainable Development Goals (SDG-7), the lecture was made open for all the students and faculty members of Faculty of Architecture, Sri Sri University.

Virtual Fresher's Program

21st - 24th Dec. 2020

2nd year Students of Architecture (FOA, Batch of 2019-24) organized a Virtual Fresher's Program for the new batch. To start-off the fresher's extravaganza, the "Met Gala", a few pre-events were conducted on an online platform.

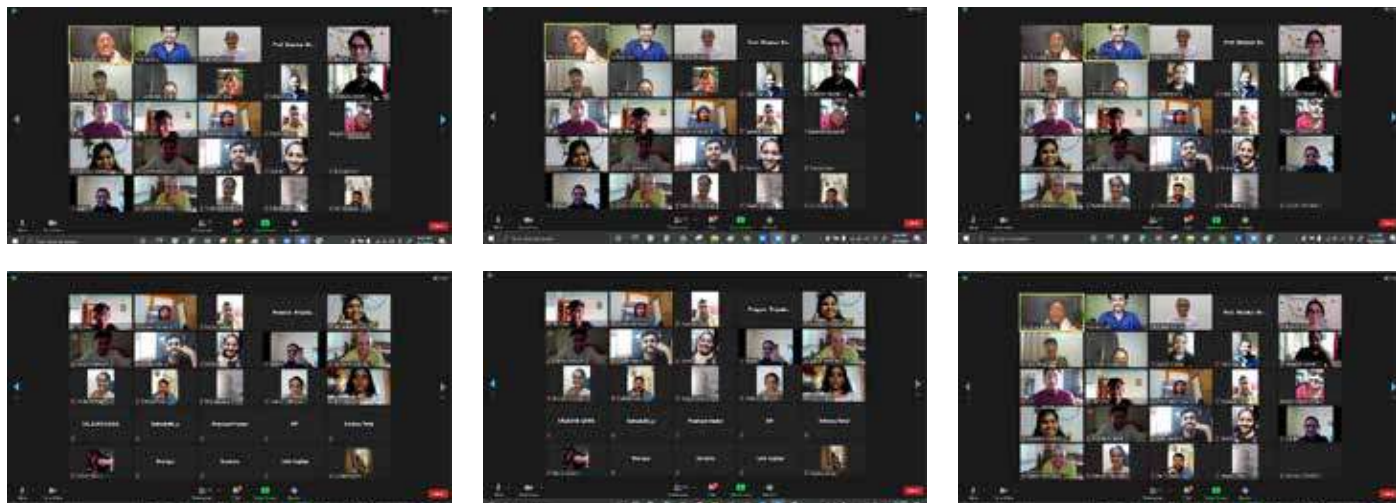

Day-01: The first one being "Khayalon ka Sheher", where the first-year students were given a chance to bring their masterpieces into spot light and take a journey down the lane to have a look to their senior's masterpieces, following which they were asked to portray a rendition of their hometown in their own way.

Day-02: The next day the students conducted "Mirror, Mirror", where the photographs clicked by various students (including the freshers) were showcased and the day was kept on a hold with an interactive session with the seniors, for the next day's fun.

Day-03: The final day of pre-fresher's event summoned an event, the "Deal the Spin", a combination of fun-filled activities and interactive conversations and the day was bid an adieu with laughter and a promise to make the freshers' party and the forever senior-junior bond, even more fun and worth remembering to make many such moments in near and far future.

"MET GALA" witnessed participation from every single student of the new batch, all dressed up as their favorite movie character. Tasks were given, legs were pulled, and stories were shared and hence moments were added to the treasure of memories. The memories of college life, each of us cherish. The beautiful event then rested with the freshers stating beautifully, "We couldn't possibly have asked for a better fresher's party!". And so, a new page, a story took awaited to be written.

Architectural Design Thesis Topic selection: Possibilities and directions.

5th December 2020

The pen-ultimate learning event for the Seventh Semester Research Skill subject taught by Prof (Dr.) Geeta Vaidyanathan was with a panel discussion titled "Architectural Design Thesis Topic selection: Possibilities and directions." The online event was held with eminent practicing architects who are also established academicians. The panel included Prof Jayshri Deshpande of COA, TRC, Gita Balakrishnan of Ethos, Anup Naik of Space Matrix and Prof. Sohan Nilkanth of Inscape.

The panel discussion started at 10:45 am and continued until 2:00 PM, with each guest sharing insights on how to make the thesis journey for final years students more meaningful. It was a great way to welcome back our 10th Semester students on the verge of starting their Thesis and at the same time bidding adieu to our Seventh Semester students, on their way to undertake their internship.

In the words of our Design Chair, Ar. Bhaskar Bharadwaj, "It was so well orchestrated with each panelist getting across an amazing wealth of information for students, not only encapsulating and enabling them to perceive "Thesis" as a whole process but also inspiring them to get an overview as how it can be managed easily following a sequential process bringing a meaning to their research."

Flagged off and blessed by our VC, Prof. Dr AK Singh, our Dean, Prof Srilakshmi Swamy, aptly summarised the event saying, that right guidance at the right time is the best thing that faculty can extend to students at this juncture of their academics. Rest, she said, is the journey of students at the individual level.

The panel discussion not only helped our students at SSU but many students across the country who had logged onto the live Facebook stream.

The Panel Discussion culminated in a 2-day intensive write shop for the 38 students of the 7th Semester, where each of them penned down three possible directions for their own Thesis Synopsis, to explore in more detail during their internship period.

DESIGN CARNIVAL EXHIBITION

29th - 31st Dec. 2020

Pandemic could restrict us meeting up on a physical platform but could not stop us from conducting a virtual exhibition. The Design Carnival was conducted by the 4th and 6th semester students as a great warm up exercise in the first week of even semester. This was a wonderful journey of 3 days (29th dec 2020 – 31st dec 2020) where the 4th semester students designed 'Themed Restaurant' and the 6th semester students designed an Architect's Caravan. The virtual exhibition was curated on the MIRO App and the meeting was organized on google Meet on 4th Jan 2021. The exhibition witnessed a wide variety of students' works showcasing their design portfolios, sheets and their sketches along with the design carnival sheets.
