

Editorial Policy

All the full-length manuscripts to **IABMS 2022** should be submitted via the email. An online portal will be provided from where you can access and process your submitted manuscript(s) and all the records including the files and the exchange of information will be maintained.

Step 1. Plagiarism check will be done for all the submitted manuscripts by using Turnitin. The Turnitin report where plagiarism report is more than 15% will not be accepted for maintaining the scientific integrity.

Step 2. Once the plagiarism report is fine the members of the Scientific Committee will perform a primary check for ensuring that the manuscript falls within the scope of the themes of the conference and then checking its merits for further review. Then the submission will be allocated to reviewers and a double-blind peer review process will be done.

Step 3. Each selected manuscripts will be reviewed by at least two reviewers with respect to the originality and validity of the study, quality and academic merit, and relevance to the society.

Step 4. The peer review reports received from both the reviewers will be scrutinized by the editor with international scientific standards for further processing.

Step 5. According to the valid review reports if the manuscript is suitable then the reports will be sent to the authors for revision of the manuscript accordingly. For invalid reports, the editor may either allocate another reviewer or provide his/her own comments.

Step 6. Once the report is sent to the respective authors, they will be required to do the necessary corrections according to the peer review comments in details and revise their article according to the points raised and answer the points raised by the reviewer.

Step 7. The revised manuscript will then be assessed by the editor to check whether the points raised by the reviewers have been correctly responded or not.

Step 8. The revision copy of the manuscript will be send by the editor to the respective reviewers again for reassessment.

Step 9. After approval from the reviewers for the revised manuscript, the Editor-in-Chief will inform the authors regarding the final decision on the acceptance of the manuscript for publication.
