

## SDG 17.2.1 Relationships to support the goals

We believe that sustainable and scalable transformation can be accelerated by the compounding power of diverse and complementary partnerships. We work with like-minded partners who demonstrate the zeal to make a difference and who share similar ethics and value systems. We co-create goals and plans with an adaptive and flexible approach that integrates multiple priorities and values interdependencies. Our relationships are nurtured through open channels of communication based on mutual respect and trust. We have worked extensively on developing sustainable solution models, strategies, and plans in the areas of Peace initiatives, Mental Health and Wellbeing, Education, Equality, Disaster Management, Climate Change, River Rejuvenation, Skilling the youth, Organic Farming in collaboration with nine International Development Agencies, 125 private sector non government organisations, 40 Government organisations and 40 Foundations and Non-Profits.
