Bidhyadharpur, Cuttack, Odisha (754006)

Purpose

The primary purpose of this policy is to bring awareness about marine pollution and support reducing the same. It encourages using eco-friendly articles and prohibits using hazardous/polluting substances.

Responsible centre: Office of the executive registrar

Procedures: The following procedures are to be adopted for the above

1. The sale and use of single-use plastic are banned inside the campus at par with Indian government rules.
2. Faculty and staff are advised to minimise the use of papers and perform the tasks digitally.
3. Sri Sri University promotes using jute bags over plastic and other eco-friendly products for daily use.
4. The operations department should ensure the wastewater/waste quality parameters and disposal are on par with the SPCB/CPCB guidelines.
5. Sri Sri University/departments shall promote the voluntary adoption of pro-environment behaviour in societies through campaigns and outreach programs.
6. The operation department shall monitor and evaluate the environmental aspects like water, air, soil, and noise and take control measures accordingly.
7. Sri Sri University must ensure no drainage of toxic/hazardous waste into the nearest water body.

EXECUTIVE REGISTRAR
