11.2.4

Public access to green spaces

Nestled in a picturesque hilly terrain outside the urban hustle and bustle of Cuttack the campus is home to a rich variety in flora and fauna. In an attempt to promote a green campus. All the buildings in the campus are designed in such a way that each building has its own pocket of green space. This campus is also rich in flora and fauna. The expansive Open Air theatre (OAT) is open to the public during cultural programs and on national days. The horticulture garden which is full of medicinal plants is also accessible to the public.

Nakshatra Vanam (The healing forest):

Based on astrological and medicinal aspects, Nakshatra Vanam has many rare plants with medicinal values. This Vanam helps astrologically while sitting and meditating under the tree based on one's Nakshatra (Birth star). The Vanam came into existence at the insistence of Sri Sri Ravi Shankar with the idea derived from the book, Vrukshayurveda. Sri Sri College of Ayurvedic Science and Research Hospital (SSCASRH) and the Department of Dravyaguna took up the task of setting up the garden, while the planetary position verification was done with the help of the astrology team of the Vaidic Dharma Sansthan.

The Vanam could be said to be the storehouse of health as sitting and meditating under a particular tree in line with one's Nakshatra, impacts positively on a person's mind and body.
