

## Evidence(s) THE-Impact Ranking

University : Sri Sri University  
Country : India  
Web Address : [www.srisriuniversity.edu.in](http://www.srisriuniversity.edu.in)

### **SDG14: LIFE BELOW WATER**

#### **14.3 Supporting aquatic ecosystems through action**

##### **14.3.3 Food from aquatic ecosystems (policies)**

**Have a policy to ensure that food on campus that comes from aquatic ecosystems is sustainably harvested.**

The consumption of food derived from aquatic sources, including fish and prawns, is expressly prohibited within Sri Sri University's campus. The institution's student handbook, specifically Handbook for the Academic Year 2022-23, unequivocally mandates that only vegetarian dishes are prepared in the kitchen and permitted within the campus.

This stringent prohibition of non-vegetarian food on campus has yielded significant results, notably diminishing the sales of non-vegetarian items in the surrounding areas. Therefore, it has led to a decline in unregulated fishing activities, thereby contributing to the conservation of the natural fish population in the adjacent Kathjodi River.
