SDG14: LIFE BELOW WATER

14.4 Water sensitive waste disposal

14.4.2 Action plan for reducing plastic waste

Have an action plan in place to reduce plastic waste on campus

Description

Sri Sri University's dedicated policy to combat marine pollution is reflected in a series of impactful initiatives. The university has significantly increased its efforts in beach cleaning and river rejuvenation projects, aligning with its commitment to environmental stewardship.

As part of its comprehensive approach, the university also imparts essential knowledge to its students and staff, emphasising pollution prevention when they visit beaches and rivers. This educational component is vital in instilling a culture of responsibility.

Sri Sri University actively engages with and supports local and regional awareness activities aimed at reducing marine pollution. This active involvement underscores the institution's dedication to preserving the health of aquatic ecosystems and fostering a cleaner, more sustainable environment.

Sri Sri University is at the forefront of combatting plastic pollution through a comprehensive plastic reduction policy. Striving to minimize its plastic footprint, the university has implemented a series of impactful measures. These include the promotion of reusable alternatives, strict guidelines on single-use plastics, and the encouragement of plastic-free events on campus. Emphasizing education and awareness, the university engages students and faculty in campaigns that highlight the detrimental effects of plastic on the environment. Additionally, strategic partnerships with local businesses and suppliers prioritize the use of sustainable packaging materials. Sri Sri University's commitment to reducing plastic waste is not just a policy; it's a collective effort to foster a culture of responsible consumption and environmental stewardship on campus and beyond.
