

## Evidence(s) THE-Impact Ranking

University : Sri Sri University  
Country : India  
Web Address : [www.srisriuniversity.edu.in](http://www.srisriuniversity.edu.in)

### **SDG14: LIFE BELOW WATER**

#### **14.4 Water sensitive waste disposal**

##### **14.4.3. Reducing marine pollution (policy)**

**Have a policy on preventing and reducing marine pollution of all kinds, in particular from land-based activities**

#### **Comments:**

At Sri Sri University, a robust policy to reduce marine pollution takes center stage. Implementing stringent measures, the university is committed to minimizing its environmental footprint in nearby water bodies. Through waste reduction initiatives, responsible disposal practices, and the promotion of eco-friendly alternatives, the policy aims to curb the release of pollutants into marine ecosystems. Continuous monitoring ensures compliance with these measures, fostering a campus-wide culture of environmental responsibility. Collaboration with students and faculty underscores the university's dedication to raising awareness and actively involving the academic community in the fight against marine pollution. In essence, Sri Sri University's proactive approach towards reducing marine pollution exemplifies its commitment to sustainable practices and the preservation of aquatic environments.
