### SDG15: LIFE ON LAND

#### 17.2 Relationships to support the goals

##### 17.2.3 International collaboration data gathering for SDG

**Participate in international collaboration on gathering or measuring data for the SDGs**

**Plate 1.** Weather station

**Plates 2 and 3.** Data available on a mobile app – DAVIS weather link

#### **Description:**

Sri Sri University has signed a Memorandum of Understanding (MoU) with the City University of New York (CUNY). Among the various activities outlined in the MoU, climate-related data sharing is one of the significant aspects. In this regard, CUNY has installed a solar-powered automatic weather station on the campus of Sri Sri University (**Plate 1**). The instrument records numerous climate parameters that can be shared among the students and other stakeholders of both the universities. The students can also access the data through a mobile app called DAVIS Weather Link (**Plates 2 and 3**). The data is utilized by students and researchers for climate-related studies and modeling.
