SDG 6: CLEAN WATER AND SANITATION

6.2.2. Water Consumption Per Person

The average water consumption per day in Sri Sri University is 650 m³ with a campus population of 3,850. Thus, the average water consumption per person per day is only 0.168 m³ (**Plate 1 and Plate 2**). Total water consumption during this year has increased over the past year. This is attributed to water consumed by laborers/daily wages workers engaged in the construction of 14 storied Iconic tower and few new hostels in the campus.
