**SDG17: PARTNERSHIP FOR THE GOALS**

**17.2 Relationships to support the goals**

**17.2.4 Collaboration for SDG best practice**

**Sustainable Campus: Waste to Gold**

Sri Sri University plays a pro-active role in creating a sustainable campus environment. These include fostering a green, clean, and joyful atmosphere, encouraging natural farming practices (Refer Plate 01) and raising student awareness about environmental conservation and energy efficiency (Refer plate 02). It also emphasizes on reducing carbon emissions, advocating for green architecture, and contributing to the achievement of Sustainable Development Goals (SDGs). Together, these actions aim to integrate sustainability into campus life and build a model for responsible ecological stewardship.
