**Sustainability
Impact Ratings**

Sri Sri University is committed to becoming a carbon-neutral campus and follows a well-defined Zero Emission Policy to guide this transition. The university upholds an Energy Conservation Pledge that addresses all key aspects of reducing emissions and promoting responsible energy use. As part of this commitment, SSU has pledged to progressively shift toward complete reliance on renewable energy, with a target of achieving 100% renewable energy usage in its systems by 2030. Achieve by

- Date for achieved prior to 2021 – 4 points
- Date for achieved by: 2021-2029 – 3 points
- **Date for achieved by: 2030-2039 – 2 points**
- Date for achieved by: 2040-2049 – 1 point
- Date for achieved by: 2050 or later – 0.5

Conclusion:

Sri Sri University envisions transforming its entire campus into a fully carbon-neutral environment by the year 2030, guided by its comprehensive Zero Emission Policy. This commitment is further strengthened through an Energy Conservation Pledge embraced by the university community, along with a planned complete shift toward clean, renewable, and sustainable energy sources to significantly reduce environmental impact.
